

## Vocational Rehabilitation Services are Available Virtually

To help individuals with disabilities access services during the COVID-19 pandemic, local Vocational Rehabilitation (VR) teams are available virtually to help our VR customers work toward their employment goals. VR counselors, VR teachers, Rehabilitation Assistants and Independent Living workers are available to provide services by phone, email or teleconference where possible.

Texas Workforce Solutions-Vocational Rehabilitation (VR) Services works with eligible individuals with any disability, whether visible or not. If you have a disability that makes difficult for you to obtain or maintain employment, contact us.

It's estimated that 1 in 4 U.S. adults has a disability. Having a disability can make it challenging for a person to live everyday life, including keeping a job. Texas Workforce Solutions-Vocational Rehabilitation (VR) Services helps eligible individuals with a mental or physical disability affecting their employment with needed supports so that they can obtain, maintain or advance in employment. Counseling and guidance, training, and assistive technology are just a few of the available services. Contact VR Services in Victoria at (361)580-5700 or visit [www.twc.texas.gov/VRNearMe](http://www.twc.texas.gov/VRNearMe)

### VR serves job seekers with disabilities

It's estimated that 1 in 4 U.S. adults has a disability. Having a disability can make it challenging for a person to live everyday life, including keeping a job.
